WASHINGTON.

Wherever the bright sun of heaven shall shine,
His honor and the greatness of his name shall be.

SHAKESPEARE.

How shall we praise him on this day of days,
Great son of fame who has no need of praise?

Ah, hero of our younger race!
Great builder of a temple new!
Ruler, who sought no lordly place!
Warrior, who sheathed the sword he drew.

HARRIET MONROE.

No nobler figure ever stood in the forefront of a nation's life.

R. J. GREEN.

First in war, first in peace, and first in the hearts of his fellow citizens.
RESOLUTIONS ON THE DEATH OF GENERAL WASHINGTON.

I feel on his death, with his countrymen: Verily a great man hath fallen in Israel.

THOMAS JEFFERSON.

The character of Washington may want some of those poetical elements which dazzle and delight the multitude; but it possessed fewer inequalities, and a rarer union of virtues, than perhaps ever fell to the lot of one man.

WASHINGTON IRVING.

Washington's a watchword such as ne'er
Shall sink while there's an echo left to air.

BYRON.

Washington stands alone and unapproachable, like a snow peak rising above its fellows into the clear air of morning, with a dignity, constancy and purity which have made him the ideal type of civic virtue to succeeding generations. No greater benefit could have fallen the Republic than to have such a type set from the first before the eye and mind of the people.

JAMES BRYCE.

His integrity was the most pure, his justice the most inflexible I have ever known; no motives of interest or consanguinity, of friendship or hatred being able to bias his decision.

THOMAS JEFFERSON.

They say of Giotto that he introduced goodness into the art of painting; Washington carried it with him into the camp and the cabinet, and established a new criterion of human greatness.

GEORGE BANCROFT.

In the death of Stephen M. White the State loses a citizen of magnificent abilities. He was a man of that large kind of intelligence which recognizes integrity, honesty, and fair dealing as necessary factors in the conduct of life. He was true to the people and so they trusted him and honored him by electing him as one of their representatives in the Senate of the United States. There he ably championed the interests of California and won from his colleagues those "golden opinions" that do not weigh upon the heart, but rather buoy up and sustain all the native and noble impulses of manhood. Peace to his ashes.

THE Petaluma Courier was moved this week from its old stand on Main street into a new office on Kentucky street, recently built by the proprietor of the paper. Editor Ravenscroft's farewell lullaby to the old barracks is as follows:

"Monday's Courier will be the first paper in the history of the county issued from a building owned by the paper, and marks one more step in advancement for Petaluma."

Our worthy brother of the quill, puffed up with the pride of a boy who has just donned his first pair of red-top boots, is unmindful of the fact that for the past twelve years the INDEX-TRIBUNE has been printed in a building owned by its editor and proprietor. Petaluma is over a decade behind Sonoma in taking this "step in advancement."

THE latest drink that the Kansas barkeepers deal out, is the "Carrie Nation cocktail," a regular smasher.

THE OBSERVER.

Delaware's Whipping Post.

The good people of Delaware are once more discussing the advisability of abolishing the whipping-post. This State is the only one in the Union where this institution still exists, but there are many good reasons for believing that this method of punishing criminals might well be extended elsewhere. Some of our ablest and most enlightened jurists are of the opinion that the lash is a more fitting and effective method of dealing with certain petty criminals than any other that has ever been devised. It is a noteworthy fact that Chief Justice B. Lore, of Delaware, is himself strongly in favor of retaining the whipping-post. "In order that poetic justice may be done," says Judge Lore, "I think a man who whips his wife ought to be whipped. I would have the wife whip him if I could get her to do it, and I would like to stand beside her when she performed the ceremony. In the forty years of my experience fully one-third of the criminals coming before the court have been non-residents. If they had been sentenced to be whipped I have not heard of a single instance of one returning to Delaware after receiving his punishment. Therefore, the whipping-post, in my opinion, is most effective." This is strong and valuable testimony in favor of the lash by one who knows whereof he speaks. We have no doubt whatever that it would be a good thing to set up a whipping-post in every State in the Union. A sound flogging is the best and most effective medicine that can be administered, not only to wife-beaters, but to wife-deserters, kidnappers, and lazy and vicious vagrants. It is the only kind of punishment that would have any deterrent effect on creatures of this sort.—*Leslie's Weekly.*

St. Louis Sues Chicago.

St. Louis has sued Chicago in the Supreme Court of the United States for emptying her sewage through the new Drainage Canal into the Mississippi River, and has won her case. Chicago apparently must cease to send her sewage down the Mississippi, but there is no present appearance that she means to do so. The only action in sight on her part is another action at law. She proposes that St. Louis shall show what damage, if any, she has sustained from the canal, and she will insist that the canal has not hurt the Mississippi water, but has done it good. To this end she demands a jury trial before the Supreme Court—a very rare thing, of which there has been but one instance. Having \$34,000,000 invested in that canal, Chicago intends to run water through it, and everything that Chicago water implies, if lawyers can keep it open. Sooner die in the ditch than dam it, is her sentiment.—*Harper's Weekly.*

Mr. Stead's book, *If Christ Came to Chicago*, contained a great deal of accurate personal information of a sort not often printed. Among other things it gave many names of owners of houses used for disreputable purposes. Some of these owners got from it their first news that their property was being put to an evil use. Most of them were aware of it before. The other day a man who happened to want the book ordered it from a book-store. He got word that it was out of print and could not be had except by waiting for a stray second-hand copy. He said he would wait, and is still waiting. The inference is that it has been worth something to some one to suppress the book. A further deduction is that the dangerous classes include some owners of real estate.—*Harper's Weekly.*

It is encouraging to note the successful operation in various parts of the United States of road-making as a solution of the tramp problem. This plan is found to be beneficial in many directions. It saves the expense of supporting a lot of vagabonds in idleness in the jails and other places of detention, and also diminishes the total number of tramps roaming about the country. The country needs good roads very much, but it does not need tramps, and if the number of the latter can be sensibly diminished by this work test, the whole community will be thankful.—*Leslie's Weekly.*

Mrs. Carrie Nation is still on the rampage and joints are falling before her. We would suggest that she visit Dakota, where "jag wagons" are running full blast. A "jag wagon" is an accommodating conveyance carrying passengers from anti-prohibition to prohibition towns. The fare is a nickel including a schooner or high ball.

The Boers are still maintaining their right to freedom and every day brings report of hard fought battles and desperate encounters. Their position under the new King is not one apt to pacify. When Edward was proclaimed by Lord Kitchener, at Pretoria as Supreme Lord of and over the Transvaal, the Boers realized that in reality they would be no better off than ever they have been. The title given to his majesty was undoubtedly selected with great caution and diplomacy, but to the people in South Africa who have been struggling for true independence its real meaning was plainly apparent. The Boers are pretty level headed and their dogged determination to break loose from Great Britain has sharpened their wits and made them exceedingly keen. The title Supreme Lord of and over the Transvaal is a sugar coated pill but the coating is thin. Underneath lies the bitter.

Verdi, the great composer who recently passed away, has left a monument which will live for all eternity. What heart does not flutter, what eye does not fill with tears at the sound of his soul-stirring music? In the Miserere is the full expression of the Verdi soul. A little fragment such as this is a grand memorial. Money cannot buy such a monument any more than can the power of Princes and Kings. It is a gift from God.

Philip D. Armour said: "When I lived in New York State, and began my tramp across the continent, we thought the only opening in the world was in California. I saw openings all the way there. Folks without any faith have always been saying that there are too many of us. If you got any really good thing to sell, you can't get too many people to manufacture it, and there are always enough people to consume it. The best opening in business is where you can put in the most brains, and industry, and three feet for every yard. After a while we shall see other fortunes made, like mine has been, out of things we now waste. There are just as many things yet to be transformed into food and medicine and energy, out of a steer, as there were of those apparent to me forty years ago. It looks as if I packed everything but the last breath of a hog; but according to this idea, the boys who get out all there is in that last breath will have a bigger business than mine." "We are at the beginning of things, not at the ending. With scientific business methods, I would rather have the dump of the mines than the mother-vein, if I had to handle the mother-vein in ignorance."

At times, both Washington and Lincoln could talk much; but never, like your Cromwells or Napoleons, of themselves. Silent they habitually were, but not to mislead. They believed the truth was not always to be spoken; but they also believed that when there was imperative need to speak, nothing but the truth should be spoken.

This picture is the trade mark of SCOTT'S EMULSION, and is on every bottle of SCOTT'S EMULSION in the World, which now amounts to many millions yearly. This great business has grown to such vast proportions,

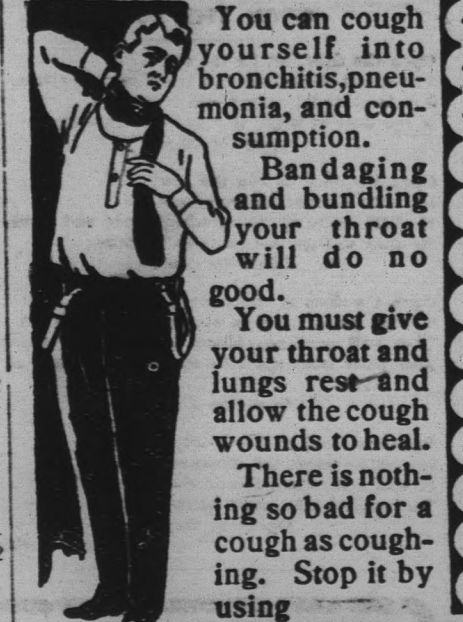

First—Because the proprietors have always been most careful in selecting the various ingredients used in its composition, namely: the finest Cod Liver Oil, and the purest Hypophosphites.

Second—Because they have so skillfully combined the various ingredients that the best possible results are obtained by its use.

Third—Because it has made so many sickly, delicate children strong and healthy, given health and rosy cheeks to so many pale, anaemic girls, and healed the lungs and restored to full health, so many thousands in the first stages of Consumption.

If you have not tried it, send for free sample. Its agreeable taste will surprise you.

THROAT REST

You can cough yourself into bronchitis, pneumonia, and consumption. Bandaging and bundling your throat will do no good. You must give your throat and lungs rest and allow the cough wounds to heal. There is nothing so bad for a cough as coughing. Stop it by using

Ayer's Cherry Pectoral
Even the cough of early consumption is cured. And, later on, when the disease is firmly fixed, you can bring rest and comfort in every case. A 25 cent bottle will cure new coughs and colds; the 50 cent size is better for settled coughs of bronchitis and weak lungs; the one dollar size is more economical for chronic cases and consumption. It's the size you should keep on hand. All families ought to be on the watch for sudden attacks of croup or acute lung troubles. Every country home in the land should keep Ayer's Cherry Pectoral constantly on hand to provide against an emergency.

FOR MALARIA, CHILLS AND FEVER.

The Best Prescription Is Grove's Tasteless Chill Tonic.

The Formula Is Plainly Printed on Every Bottle, So That the People May Know Just What They Are Taking.

Imitators do not advertise their formula knowing, that you would not buy their medicine if you knew what it contained. Grove's contains Iron and Quinine put up in correct proportions and is in a Tasteless form. The Iron acts as a tonic while the Quinine drives the malaria out of the system. Any reliable druggist will tell you that Grove's is the Original and that all other so-called "Tasteless" chill tonics are imitations. An analysis of other chill tonics shows that Grove's is superior to all others in every respect. You are not experimenting when you take Grove's—its superiority and excellence having long been established. Grove's is the only Chill Cure sold throughout the entire malarial sections of the United States. No Cure, No Pay. Price, 50c.

Oil to be Used for Fuel at Petaluma.

The big electric light plant at Petaluma is building a fifteen thousand gallon reservoir for crude oil for fuel, says the Santa Rosa Press-Democrat. A saving of ten percent in fuel bills will be affected by the change. The plant is already equipped with an oil burning apparatus as oil was tried once before but at that time the cost was greater than when coal was used.

TEACHERS' INSTITUTE.

The Programme Arranged by Minnie Coulter

Santa Rosa Wins the Next Institute.

The Teachers' Institute is assured to the City of Roses in the vote taken by the teachers of the county. The Institute opens Monday, April 15th, and while the contest over a place for holding it was in progress, County Superintendent Minnie Coulter was occupied with securing instructors for the occasion. Among those who have consented to take part in the Institute are David Starr Jordan, President of Stanford University. Dr. Jordan will be one of the special evening attractions, his lecture being scheduled for Wednesday of Institute week. Another evening lecturer is Dr. Charles R. Brown, pastor of the First Congregational Church in Oakland. On Thursday evening he will address the teachers on "Moral Education."

Dr. Frederick L. Burk, Principal of the San Francisco State Normal School, Prof. Cubberley of the pedagogical department of Stanford, and Prof. Ousterhout of the science department of the State University are down on the programme. So also is Superintendent McGinnis of the Oakland schools, who will lecture on "School Hygiene, Ventilation and Number Work." Chas. Keeler, a prominent lecturer and author, who makes his home at Berkeley, will also address the teachers if he returns from New Zealand previous to the Institute. He is the author of "Bird Notes Afield," and his theme will be "California Birds."

Of Interest to Horsemen.

As soon as the weather permits a race will be reeled off on the Santa Rosa track between Owen Frisbie's road mare, Trilby, by Secretary, and Charles Potter's sorrel filly, Lucille, by Briarhill. Local horsemen are studying the speed qualities and endurance of the two animals with a view to "playing" the race. Trilby has never had any track work, but she is very fast and can "go the route;" but her backers feel inclined to shiver when they muse over the past performances of the game little Lucille. As a two-year-old this filly, driven by J. P. Moore, now foreman of the Spreckels ranch near this place, stepped a quarter on the Petaluma track in 33 seconds, a 2:12 gait. One year later she circled the oval in 2:23, and it was then thought by many trainers that she was a few months onward Lucille was severely injured by barbed wire and this put an end to her training. Mr. Potter believes that his equine pet still possesses her old-time speed, and if he is correct in his judgment, woe unto the handsome Trilby.

Flossie Direct, the game little pacer once owned by Joe Ryan of this place, stepped a quarter recently, at Santa Rosa, in 34 seconds, and she will probably be trained for the circuit this year. For a long time this filly was used as a saddle animal in Sonoma, and less than a year ago she was sold here for seven dollars. At that time her gait was mixed and no one thought that she would ever make a square pacer. The mare did "square off," however, and two months after leaving Sonoma she paced a quarter in 37 seconds. Last July she was sold for \$120, and her present owner has a standing order of \$400.

Ed. Burris and Charley Hill were in San Francisco Saturday and took in the handicap at Tanforan. They landed in Sonoma with all expenses paid and something besides.

Jim Glynn picked the winner, The Fretter, of the Burns handicap last week.

Del Norte, a famous race horse of J. B. Chases' stock farm, was purchased this week by David Burris. The horse will be shipped to Mr. Burris' ranch in Kings county, in a few days. Del Norte was raised at Chases' stock farm in this place and he won several races in the Ingleside track. His sire is Greenback and his dam is Pyvella. Among his progeny are several promising colts.

Valuable Hint to Pear Growers.

In the following letter which appeared in the Sebastopol Times, we are pleased to notice the writer's hearty commendation of Mr. Lowell's orchard.

EDITOR TIMES:—

Will you please publish for the benefit of your readers the following formula, known as the Bordeaux Mixture, to prevent fungus growth or Bartlett pear scab:

Mix with 22 gallons of water 6 pounds of Sulphate of Copper and 6 pounds of Rocklime; add 1 pound of Paris Green to 200 gallons of water, and stir all the time while spraying to avoid settling. Spray when the bloom is from 4 to 5 out, and again when the fruit is well set, about two weeks after the first spraying.

The above formula is used by Mr. A. D. Lowell of Sonoma Valley with good success. He has sprayed as described, and is not troubled with the scab, and his fruit brings the highest market price in San Francisco. I can vouch for Mr. Lowell's success in avoiding the scab, and trust that all of our pear growers will give Bordeaux Mixture a fair trial and thus produce better fruit the coming season.

JAMES MORAN.

The Recent Storm in Petaluma.

The river ran like a raging torrent Tuesday and in one hour raised over two feet. The current was like a mill-race. Large quantities of driftwood came down stream and was caught by men and boys at the bridges. Above Washington street the land as far as the eye could reach was under water and below town the marsh looked like a sea. The river overflowed its banks in several places and if the rain continued much longer there would have been an old-time flood. All of the streams in this vicinity were higher than they have been for many years and in places the roads are in a very bad condition.

Chinese Celebrate.

Fire crackers, red paper and burning punk heralded the presence of Chinese New Year. When the Chinaman starts in to have a good time he wants everybody else to be with him. So he makes presents of candy, nuts, lilies, and fire crackers to his friends in the hope that they will have a good time and make a big noise, thus keeping the devils away. This year there has been unusual need of fire crackers. The bombardment of Peking by the Allies frightened all the devils out of China, so they came here in flocks and droves and have been stalking around in the Chinese quarters of this town hoping to make a meal of some uncelestial. Thusfar, however, none has been caught and at the present writing it is pretty certain that the fire crackers so frightened the devils that it would be hard to find one within the limits of the county.

Sonoma County Board of Trade.

At a meeting of the Sonoma County Board of Trade held last Monday evening at Santa Rosa the following officers were elected: President, Jas. S. Sweet of Santa Rosa; First Vice President, A. B. Weekly Crop Bulletin.

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, California Section, Coast and Bay Division, for the week ending Monday, February 18, 1901.

Conditions have been favorable for all crops during the week, the higher temperature toward the close having been especially beneficial to grain and grass, which are now making rapid growth. Light rain has fallen in some sections. Plowing and seeding have been resumed; this work is nearly completed in most places. Tree and vine pruning are in progress. Almonds are in full bloom in several localities. Grain is in good condition, and feed is plentiful except on some of the sandy lands. The correspondent at Arroyo Grande states that citrus trees have not been injured by the severe frosts, and that lemons and olives are very thrifty.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by F. Duhring.

LOCAL NOTES.

Blair Hart was in town last Thursday.

Friday was Washington's birthday and the High and Grammar schools were closed.

Will Sherman has accepted a position as reporter on the San Francisco evening Post.

Mrs. C. J. Poppe drove down from Glen Ellen last Thursday and was the guest of relatives.

Mr. and Mrs. Jas. Cowan of Bennett Valley were in town Thursday.

J. E. Coleman of San Francisco has accepted a position in Shoults' drug store.

Last Wednesday was the first day of the Lenten season and Mass was read in St. Francis' Church by Rev. Father Leahy.

Stuart & Van Burkleo, the San Francisco photographers, who have been in our town for several weeks, left yesterday for Dixon, Salano county.

William Weyl of this place is an artist in the line of making rings. Last week he completed a ring made out of a quarter, which is a model of neatness and workmanship in every respect. His initials and several other designs were carved in the ring. Give him a file, the coin and he will do the rest.

The girls of the Healdsburg High School edited last Thursday's edition of the Healdsburg Tribune. Their effort is a credit to themselves and to their school. Here after when the publisher of the paper is in need of a reporter he will know where to find one.

If anyone wishes to read a fine satire on our situation in the Philippines let him read Mark Twain's article "To the person Sitting in Darkness." It was published in the North American Review for February.

Narrow Escape.

Last Sunday Mrs. Chas. Ohm, her sister, Mrs. Homan, and Miss Ada Riley when driving through the Cypress lane, near the home of Hon. Robt. Howe, narrowly escaped a serious accident. Without a moment's warning one of the large cypress trees toppled over in to the road. It fell but twenty feet in front of the horse. Fortunately the horse was a gentle one. So the ladies escaped uninjured.

Superior Court Notes

The usual calendar day proceedings which mark each Monday occupied the attention of both departments of the Superior Court Monday.

In Judge Dougherty's department Charlotte Beedle was appointed administrator on the estate of Louis Beedle in a bond of \$100.

The final account of the estate of Mayme E. Merritt was settled and distribution was ordered.

Emily M. Clement was appointed administrator on the estate of Polly A. Gibson in a bond of \$5,000.

The first annual account of the estate of Wm. P. Hinshaw was settled.

These probate matters were continued: Estate of Chester A. Ingalls, Gustaf de Bruyne and Broder Frelson to February 25th.

The demurrer was overruled and fifteen days were given to answer in the action of George F. King against E. C. Merritt and others. The trial of the action of the City of Cloverdale against Smith was reset for March 12th.

In the action of J. H. Brush against G. F. King, the plaintiffs were allowed to February 23d, to amend the complaint.

Judgment for plaintiff was given in the action of Anna Heitstunann vs. M. C. Hicks and others.

In Judge Burnett's court all the Wickersham estate matters were continued for one week.

The action of W. J. Johnson et al. vs. the California Northwestern Railway Company, was continued to February 25th. A similar order was made in the action of T. F. Duncan vs. M. Lafranchi. Both are actions for damages.

The divorce suit of Lulu Tucker against John H. Tucker was referred to the Court Commissioner, Ira C. Jenks, to take testimony.

The calendars in both departments on Monday were light.

A Minister's Mistake.

A city minister was recently handicapped to be read from his pulpit. Accompanying it was a clipping from a newspaper bearing upon the matter. The clergyman started to read the extract and found that it began: "Take Kemp's Balsam, the best cough cure." This was hardly what he expected and, after a moment's hesitation, he turned it over, and found on the other side the matter intended for the reading.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.
